It is aiming to unite and concentrate GSOM faculty, alumni, post-graduates and undergraduate students' efforts on Entrepreneurship as one of the key research areas. The main goals of the Center activity are developing and dissemination of knowledge on Entrepreneurship.  | √                       | X                       | √                       | X                       |
| Europe    | UK             | <u>University of Cambridge</u>           | 3          | Entrepreneurship Centre at Cambridge Judge Business School | <a href="https://www.jbs.cam.ac.uk/entrepreneurship/about-the-entrepreneurship-centre/">https://www.jbs.cam.ac.uk/entrepreneurship/about-the-entrepreneurship-centre/</a> | The Entrepreneurship Centre at Cambridge Judge Business School aims to inspire, enable and research entrepreneurship. The Centre encompasses the full entrepreneurial journey - starting with the empowerment of aspiring entrepreneurs through to the creation and development of early-stage ventures, all the way to small and medium size enterprise growth.<br>The Entrepreneurship Centre's mission is to support the University of Cambridge's entrepreneurial talent development and commercialization of new ideas; enhance the development of management capacity within the Cambridge entrepreneurial ecosystem and beyond; develop and share thought-leadership that establishes the University of Cambridge as a global knowledge locus for entrepreneurship; and provide a critical resource for entrepreneurs, mentors and investors.                          | √                       | √                       | √                       | √                       |
| Europe    | Czech Republic | <u>Charles University</u>                | 4          | Centre for Knowledge and Technology Transfer               | <a href="http://www.cuni.cz/UKEN-78.html">http://www.cuni.cz/UKEN-78.html</a>   | The Centre for Knowledge and Technology Transfer (CPPT) is an independent part of Charles University providing information and support services for knowledge and technology transfer (KTT). The Centre creates opportunities and an environment to promote knowledge and technology transfer with the goal of increasing competitiveness and attractiveness of Charles University to students, staff, and the public, and to strengthen the "third role" of Charles University.<br>CPPT builds Charles University Innovation Network by connecting academics across all faculties and parts of C.U. The Innovation Network is based on cooperation with innovative organizations outside C.U. brokering knowledge, experience, services, information and funding. The Innovation Network is gateway, guide and a mediator between potential partners and the C.U. community. | X                       | X                       | √                       | √                       |

| Europe | UK             | <u>University of Oxford</u>                 | 7  | The Entrepreneurship Centre & The Oxford Launchpad            | <a href="https://www.sbs.ox.ac.uk/faculty-research/entrepreneurship/about-us-hub">https://www.sbs.ox.ac.uk/faculty-research/entrepreneurship/about-us-hub</a> | The Entrepreneurship Centre at Oxford University provides a range of programming to educate and develop an entrepreneurial mindset. The aim is to give our students the skills and support to either start their own venture or to be a force for entrepreneurial change within existing organizations. The Centre nurtures student teams with business ideas and supports their evolution into successful ventures. It provides support, resources, connections, and innovative programs that have global impact. Crucially, students get hands-on experience turning theory into practice, and ideas into breakthrough businesses. The Centre also disseminates cutting-edge entrepreneurship research into policy and practice. We run a number of educational programs throughout the academic year, designed to inspire, engage and accelerate students' entrepreneurial knowledge and progress.  | √                       | √                       | X                       | √                       |
| Europe | Czech Republic | <u>Masaryk University</u>                   | 10 | Center for Education, Research and Innovation for ICT - CERIT | <a href="http://www.cerit.cz/">http://www.cerit.cz/</a>   | Centre for Education, Research and Innovation for ICT (CERIT) created by the Faculty of Informatics and Institute of Computer Science prepares and integrates projects, which together form the robust and synergistic concept for the promotion of research, applications and innovations in ICT on Masaryk University. Stand on their own activities based on interdisciplinary work in partnership with other national centers of research and development and identifying national and international institutions in areas of significant social interest. It focuses on strategic projects and long-term development concept including technical support and operational activities. CERIT mission is scientific, research, development and innovation activities in the field of informatics. It contributes to the support of educational activities of the Faculty of Informatics, creates conditions for the operation and further development of the CERIT-SC as an essential part of national large infrastructures for research, development and innovation. | √                       | X                       | √                       | X                       |
| Europe | UK             | <u>University College London</u>            | 16 | UCL Innovation and Enterprise                                 | <a href="http://www.ucl.ac.uk/enterprise/about">http://www.ucl.ac.uk/enterprise/about</a>   | Our aim is to inspire a spirit of enterprise across UCL: to ensure that the economic and societal benefits of our research are fully realized. To achieve this, UCL Innovation and Enterprise brings together academics, the business community and other potential beneficiaries of our research in order to maximize its potential for commercialization and 'real world' use. The goal is to secure our institution's long-term place as a global leader in enterprise and innovation.  | √                       | √                       | √                       | √                       |
